

Delhi Public School Megacity, Kolkata

Class 4 Session 2026-27

Subject: Mathematics

Topic: Addition and Subtraction of Large Numbers

Please note that all assignments will be completed in the presence of the subject teacher during class hours. Students are not allowed to copy these assignments into their exercise books in advance. In case of absence, students may refer to the assignments to ensure that their work is up to date.

Day 1

ADDITION

Add: 6498 and 8735

The numbers will be arranged in the respective place values.

TTh	Th	H	T	O	
	1	1	1		
	6	4	9	8	Augend
+	8	7	3	5	Addend
1	5	2	3	3	Sum

Ans: 15,233

Written work: to be done in the exercise book.

Exercise 2.1 on page 32 and 33, (New Guided Mathematics)

Q1) Add the following 4-digit numbers:

a) $8134 + 1253$.

c) $3261 + 6525$.

Q2) Add the following 4-digit number with carrying.

d) $4465 + 2576$.

Q3) Add the following 5-digit number without carrying.

b) $42318 + 45281$.

Practice work:

Exercise 2.1 on page 33: Q3- c, d; Q4) d ; Q5) c (to be done in the text book)(mass corrections to be done)

Day 2:

Classwork to be done in the exercise book:

Q1. Arrange in ascending order and add.

a) 672 ; 6748 ; 67 and 6,7042.

Q2. Arrange in descending order and add.

a) 54 ; 5,493 ; 54,839 and 543 .

Day 3:

Estimating Sums

Written Work: **(to be done in the exercise book)**

Estimate the following sums:

- a) $332 + 182$.
- b) $1,298 + 897$.
- c) $28,225 + 3,536$.

Word Problems: **(to be done in the exercise book)**

1.A school library has 48,763 storybooks and 31,489 reference books. Estimate the total number of books in the library. (Rounding off to nearest thousands)

Solutions:-

Number of storybooks = 48,763 rounded to 49,000

Number of reference books = 31,489 rounded to 31,000.

∴ The total number of books in the library = $49,000 + 31,000 = 80,000$

Ans: The estimated total number of books in the school library is about 80,000 books.

Practice Work: (to be done in the exercise book)

Estimate the following:

- a) $820 + 580$.
- b) $29 + 9988$.

Day 4:

Teacher made word problems.

Q1. A cinema hall sold 8,300 tickets on Friday, 4,685 tickets on Saturday and 7,439 tickets on Sunday. How many tickets were sold over these three days?

Solutions

Number of tickets sold on Friday = 8,300

Number of tickets sold on Saturday = 4,685.

Number of tickets sold on Sunday = 7,439

∴ Total number of tickets sold over these three days are = 8,300 + 4,685 + 7,439.

Workings:-

TTh	Th	H	T	O
	1	1	1	
	8	3	0	0
	4	6	8	5
+	7	4	3	9
2	0	4	2	4

Ans: The cinema hall sold 20424 tickets on these three days.

Q2. Riya saved ₹ 865 in her piggy bank. Her parents gave her ₹ 2,478 and her grandfather gave her ₹ 5,455
How much money does she have in all?

Solution:-

Money saved by Riya = ₹ 865.

Money received by Riya from her parents = ₹ 2,478.

Money received by Riya from her grandparents = ₹ 5,455.

∴ Total amount of money Riya has received = ₹ (865 + 2478 + 5455)

Workings:-

TTh	Th	H	T	O
	1	1	1	
		8	6	5
	2	4	7	8
+	5	4	5	5
	8	7	9	8

Ans:- Riya has an amount of ₹ 8798 in her account.

Classwork: Ex. 2.7 Page 45 Q2 and Revision exercise Page 46, Q9. (to be done in the exercise book).

Practice Work: Revision exercise Page 46, Q8 (to be done in the exercise book)

Day 5:

SUBTRACTION

Subtract 3876 from 7394

The numbers will be arranged in the respective place values.

	Th	H	T	O	
	7	3	9	4	Minuend
—	3	8	7	6	Subtrahend
	3	5	1	8	Difference

Ans:- 3,518.

Classwork: To be done in the exercise book

Ex. 2.2 Page 36

Q1. Subtract the following 4-digit numbers without borrowing.

c) $9687 - 6534$.

d) $5789 - 3672$.

Q2 Subtract the following 4-digit numbers with borrowing:

a) $6370 - 2138$

b) $5946 - 1348$

Practice work: Ex 2.2 Page 37 Q3 and Q4 to be done in the textbook.

Day 6:

Properties of subtraction: (to be copied in the exercise book)

- Subtracting zero from any number leaves the number unchanged.
For example: $8 - 0 = 8$.
- Subtracting a number from itself results in zero.
For example: $7 - 7 = 0$.
- In subtraction, order of numbers cannot be changed.
For example: $8 - 3 = 5$

Word problems on real life application: (will be done in exercise book)

Q1. A school library had 4,865 books. Out of these, 2,748 books were issued to students. How many books are left in the library?

Solution:

Total number of books present in the library = 4,865

Number of books issued to students = 2,748

$\therefore$ Number of books left in the library = $4,865 - 2,748$

Working:-

	Th	H	T	O
	4	8	6	5
—	2	7	4	8
	2	1	1	7

Ans: Number of books left in the library is 2,117.

Q2. There are 6,432 students in a school. 1,975 students were absent on a rainy day. How many students were present?

Solution:-

Total number of students in the school = 6,432

Number of students absent = 1,975

$\therefore$ Number of students present in the school = $6432 - 1975$.

Workings:

	Th	H	T	O
	6	4	3	2
—	1	9	7	5
	4	4	5	7

Ans: 4,457 number of students were present on school during rainy day.

Day 7:

Estimating Difference.

Classwork: to be done in the exercise book.

Estimate the following differences:

- a. 3225 - 680.
- b. 3899 - 1028.
- c. 4875 - 1555.

Teacher made sums to be done in the exercise book

Q1. A train was supposed to travel 8,739 km in a month. It actually travelled 5,218 km. Estimate how many kilometres were left to be travelled. (estimate to the nearest thousands)

Solutions:

Total distance planned by the train to travel = 8,739 km rounded to 9,000 km.

Distance actually travelled by it = 5,218 km rounded to 5,000 km

∴ Estimated distance left to travel by train = (9,000 – 5,000) km.

Working:-

	Th	H	T	O
	9	0	0	0
—	5	0	0	0
	4	0	0	0

Ans: 4,000 km is left for the train to travel.

Q2. A water tank can hold 9,245 litres of water. 4,768 litres were used. Estimate the amount of water left in the tank. (Rounding off each number to nearest tens.)

Solution:-

Total capacity of water contained in tank = 9,245 litres rounded to 9,250 litres

Capacity of Water used in the tank = 4,768 litres rounded to 4,770 litres.

∴ Estimated amount of water left in the tank = (9,250 – 4,770) litres.

Working:-

	Th	H	T	O
	9	2	5	0
—	4	7	7	0
	4	4	8	0

Ans: Capacity of water left in the tank is 4,480 litres.

Practice work: to be done in the exercise book

Riya had ₹ 3,865. Her parents gave her ₹ 2,475. She spent ₹ 1,948 on shopping. How much money is left with Riya? (Estimate to the nearest hundreds).

Worksheet to be done
